

Year 2 Home Learning

Dear Year 2 Families

Our new home learning grid will be for the whole of the spring term, as our learning journey 'Around the World in 80 Days' continues over both half terms. The tasks included are cross-curricular, the aim is to provide a range of activities that appeal to different learning styles – kinaesthetic, visual, auditory, verbal, interpersonal etc. We are encouraging independent and shared learning which will develop interest and knowledge linked to our learning journey.

The tasks along the grid are progressively harder and will take longer to complete. We value all the children's learning and are delighted to see all the wonderful learning that has been done at home.

It is up to you how much or little you do but we hope you will all enjoy participating in the tasks. We look forward to celebrating all the fantastic learning later in the spring term when we do our class showcases.

Best wishes

The Year 2 Team
