

## Safer Internet Day 2018

Dear Stanford Infant Families

Today is Safer Internet Day (SID). SID is organised by the joint Insafe/INHOPE network, each February to promote the safe and positive use of digital technology, especially among children and young people. Celebrated on the second day of the second week of the second month, each year on Safer Internet Day millions of people unite to inspire positive change and raise awareness of online safety issues and participate in events and activities right across the globe.

Safer Internet Day aims to not only create a safer internet but also a better internet, where everyone is empowered to use technology responsibly, respectfully, critically and creatively. Everyone has their part to play in creating a better internet.

By celebrating the positive power of the internet, the 2018 Safer Internet Day theme of '**Create, Connect and Share Respect: a better internet starts with you**' encourages everyone to join the global movement, to participate, to make the most of the internet's potential to bring people together.
