

13th December 2021

Dear Year 2 Families

Firstly, thank you for all your support over the last few weeks. The children have very much enjoyed the run up to the Christmas holidays and all the special activities that go with it. As usual, there will be much to look forward to in the new term as we explore the World. Attached is an overview of the first half term. We will be sending this term's knowledge organiser in a few weeks' time. It's a chance for your child to share their learning with you.

As a **Super Start**, we would like to showcase the different countries our children know about, have links to or have visited. On **Friday 7th January** we would like the children to bring in an object, photograph, book or souvenir about their chosen country which they can share with their class as they talk about a few facts they know.

Throughout the half term each class will also be enjoying food from different countries that the children will be cooking themselves.

For a **Marvellous Middle**, we will be getting fit and healthy with a fun and energetic Kidzfit workshop.

All home learning books should be in school at present; the new grid will come out to you stuck into their home learning book within the first few days of the new term.

Best wishes and happy holidays!
The Year 2 Team
