

Year 2 Autumn 1 The Patchwork Quilt	Shorter activity			Longer Activity
	Date for exhibition - w/b 18 th October		Please ask if you need any resources to help. 	
Pink - I enjoy words 	Write an A-Z of boys' and girls' names.	Find and learn a poem/rhyme about family.	Write an algorithm for brushing your teeth.	Discuss with your family what they think about recycling clothing and other fabrics then write a report about what you have found out?
Blue - I enjoy numbers and science 	Find and sort different buttons by shape, colour or size. What did you find out?	Make a tally of your friends' favourite ice cream flavours.	Research how different fabrics are made, and draw a diagram to show what you have found out.	Make your own snakes and ladders game to help you learn the numbers to 100.
Yellow - I enjoy painting and drawing 	Draw a sketch of your favourite fabric found in your house.	Draw or paint a picture of your family.	Design and create your own fabric design, colour it carefully.	Design and label a new outfit you might wear for a special occasion. Be as creative as you like.
Green - I enjoy doing things 	Help a grown up to do the washing and hang it up to dry.	Design and create a medal for each person in your family to celebrate something they are good at.	Have a go at paper or fabric weaving.	Ask a grown up to help you do some sewing.
Orange - I enjoy music 	How many songs can you think of with family names in the titles?	Make a musical instrument. It could be shaken, beaten, blown or strummed!	Write a road safety rap to get the message across to younger children.	Do different pieces of music make everyone feel the same? Can one piece of music make everyone happy? Explore and record your results.
Purple - I enjoy working by myself 	Make a collage with fabric, newspaper, recycled materials or magazine scraps.	Create a word search about families.	Learn a new skill and write in your book all about it.	Research a fashion designer. Find out some facts about the person and what they are famous for designing. Present your findings in an interesting way.
Red - I enjoy working with others 	Go on a listening walk and draw what you have heard.	Make a cake or some biscuits to share with your family or friends.	Interview some of your family members and create your family tree.	With your family, go on a day out and take some photographs of your trip.
