Intrepid Explorers: Space!

Dear Reception families,

The children have loved learning about Dinosaurs and Museums as part of our 'Intrepid Explorers' learning journey. We will still be thinking about the role of museums but will be moving the focus of our learning onto Space next week!

As part of our Space learning, the children will be designing and making their own aliens! We would love some donations of small (no bigger than hand-size) junk modelling materials to support this learning, in particular:

- Small bottles
- Small cardboard boxes
- Tubes (not toilet rolls)
- Pots – e.g. yoghurts
- Lids – e.g. milk bottles
- Colourful socks
- Buttons
- Ribbon
- Anything else exciting and alien-related!

If you can help with any of these items, please ensure that they are washed out thoroughly and pass them to your child's class teacher.

Many thanks as always for your support,
The Reception Team
